## Features & Advantages

- ▶ **Long Durability**  
The corrugated paper is specially treated with high structural strength, corrosion resistance and long service life.
- ▶ **Uniform permeability**  
Excellent water permeability and absorption of the corrugated paper ensures the water evenly penetrates the entire cooling pad wall.
- ▶ **Large evaporation area**  
The specific three-dimensional space structure provides the largest evaporation area for the heat exchange between water and air.
- ▶ **Customer-oriented Option**  
Aluminum alloy and galvanized steel are available for the side frame.
